RULE No. 2 APPLICATION OF RATES AND CHARGES

A. GENERAL

Rates in this Tariff do not include Wharfage Charges.

Rates which apply on a weight basis will be assessed against the gross weight of the freight, including packaging.

Except as otherwise provided, rates which apply on a cubic measurement basis will be assessed against the overall measurement of the greatest outside dimensions of each piece, package, or other freight unit as tendered by Shipper.

Rates do not include Marine Insurance

Container Cargo - Rates designated as container rates apply to all cargo including vehicles tendered in a closed container or tendered in flat rack or open top container. Rates stated on a per container basis do not apply to cargo extending beyond the perimeter in length, width or height, except as otherwise provided. Except as otherwise specifically provided in individual items, rates are not applicable on shipments in tank containers.

Non-Container Cargo - Rates for cargo other than container cargo apply from or to place of rest at Carrier's terminal at the calling ports, but do not include the loading or unloading of the cargo from or to trucks, railcars, or barges. Shipper must arrange for and procure at its expense such services.

B. ROUND TRIP MOVEMENTS

Except as otherwise provided, rates named in this Tariff apply only in a single direction. Rates making reference to this Item apply only on the condition that the container used to handle an inbound load (or a pool container) is used for an outbound load with no interruption in the round trip movement except for unloading on the one hand and reloading on the other hand.

Round trip movements are applicable only when reference is made hereto.

C. MEASUREMENTS

When computing rates and charges on a shipment, or in computing rates and charges based on multiple or proportion of another rate or charge, the following will govern in the disposition of fractions, with each item on the Bill of Lading shall be considered separately:

Fractions of less than 1/2 or 0.5 of a cent, omit.

Fractions of 1/2 or 0.5 of a cent or greater, increase to the next whole figure.

Where a fraction of exactly one-half inch occurs in two dimensions, the one on the smaller dimension shall be taken to the next full inch and the other one dropped. If both dimensions are the same, one fraction shall be taken to the next full inch and the other dropped.

Where fractions of exactly one-half inch occur in three dimensions, those on the largest and smallest dimensions shall be taken to the next full inch and the other dropped. If all three dimensions are the same, two fractions shall be taken to the next full inch and the third dropped.

On a single piece, package or other freight unit of less than one cubic foot, if the fraction is one-half cubic foot or less it shall be freighted at one-half cubic foot. If the fraction exceeds one-half cubic foot, it shall be freighted at one cubic foot.

On a single piece, package or other freight unit in excess of one cubic foot, if the fraction is less than one-half cubic foot it shall be dropped. If the fraction is one-half cubic foot or over, it shall be taken to the next full cubic foot.

On each item on a Bill of Lading consisting of two or more pieces, packages or other freight units, actual fractions shall be used to determine the total measurement of all the pieces, packages or other freight units. Where the total results in a fraction, such fractions shall be dropped, if less than one-half cubic foot. If the fraction is one-half cubic foot or over, it shall be taken to the next full cubic foot.

In determining the cubical contents of any piece or package, the extreme dimensions of length, width and depth, including all projecting portions shall be used. Conversion into cubic feet will be made only after fractional inches have been disposed of as provided herein. For conversion purposes, 1728 cubic inches equals one cubic foot.

In determining the cubical content of cylindrical or spherical objects, the measurements are to be taken on the square of the bilge. In determining the cubical contents of barrels, casks, hogsheads or kegs, measurements are to be taken on the square of the bilge, times the height; and the result multiplied by 0.8 on account of their bilge.

In computing measurements to determine rate to be applied where weight rate is predicted on measurements per ton, the actual fractions will be used.

The word "Package" or "Packages" as used herein does not refer to the Carrier's containers or containers.

SECTION 2 - RULES AND REGULATIONS - ORIGINAL PAGE 13

RULE No. 2 APPLICATION OF RATES AND CHARGES

(continued from the previous page)

D. METHOD OF COMPUTING FREIGHT

1. WEIGHT (W) RATE BASIS

Cargo freighted on a weight basis shall be assessed rates on the gross weight of individual pieces or packages in 100 pound increments (100 pounds = one cwt = W). In computing total weight in pounds to determine freight charges, it shall be permissible to round off to three (3) decimal places.

2. MEASUREMENT (M) RATE BASIS

Except as otherwise specified in this Rule, the three greatest outside dimensions (depth, width and length) of the package or piece (See Rule below) are to be multiplied together to produce the cube of one package or piece in cubic feet (cft), rounded off to three (3) decimal places. This calculation, when applied to non-rectangular shapes, will result in the cube of the rectangular container in which the package or piece would fit.

3. WEIGHT or MEASUREMENT (W/M) RATE BASIS

Cargo freighted on a weight or measurement basis, shall be assessed rates according to the Rules for Weight and Measure above, whichever produces the greater revenue.

4. PER CONTAINER RATE BASIS

Cargo rated on a per container basis shall be assessed rates on the basis of the total number of each different kind (size and type) of container in the shipment.

SECTION 2 - RULES AND REGULATIONS - ORIGINAL PAGE 14

RULE No. 2 APPLICATION OF RATES AND CHARGES

(continued from the previous page)

E. APPLICATION OF TIME VOLUME RATES (TVA)

1. Rates apply on Time Volume as specified in individual rate items and only after Shipper/Consignee indicates, in writing, to Carrier intent to utilize Time Volume rates and dates of commencement. Shipper/Consignee is further defined as the person or firm paying freight charges to Carrier.
2. In the event of any emergency disruption in Shipper's or Carrier's ability to handle shipments on a regular basis, such as strikes or other work stoppage, Sabotage, fires, marine disasters, acts of God, public enemy, embargoes, riots, war, civil commotions, invasions, rebellion, hostilities, or any such causes beyond the control of either party, the annual period shall be extended to cover the period of disruption as mutually agreed upon in writing.
3. Except as otherwise provided in the specific rate items, when the individual fails to tender the minimum volume specified during the Time Volume period, overall freight charges will be adjusted on the basis of the deficit volume, (i.e. the difference between volume actually shipped during the Time Volume Period and the minimum volume specified in the individual Time Volume rate item) will be charged at \$250.00 per container.
4. Except as otherwise provided, annual volume rates named in this tariff do not alternate with other rates in this tariff or any other tariff issued by Carrier.
5. Except as otherwise provided in the specific rate items, annual volume rates are subject to all rules, regulations and other charges provided in this tariff.
6. Rates are subject to adjustment during the annual period upon mutual agreement between Shipper and Carrier.
7. Bills of Lading used to move shipments under annual volume rates must be claused "Annual Volume, Tariff NSHA-001 Item No. _____".
If such clause is omitted, Shipper may issue a corrected Bill of Lading.
8. Customers of like status requesting participation in a Time Volume Agreement must notify Carrier of their intentions to participate within thirty (30) days of the effective date of the agreement.

The word "Shipper" shall include the person entering into the transportation agreement with Carrier and for whose account the goods are shipped. The word "Goods" shall include articles of every kind and description, including their packaging, containers or other shipping units or materials, tendered to Carrier for transportation under the transportation agreement and described on the front side of this bill of lading. The word "Consignee" shall include a holder of a negotiable bill of lading, rightfully endorsed, the person named as consignee on the face hereof, the owner of the Goods, and all other persons lawfully entitled to possession of the Goods (other than Carrier). The word "Charges" shall include freight, demurrage, equipment detention, general average, salvage, and any other money obligations incurred or payable by the Shipper and/or the Consignee, or for the payment of which Carrier has a security interest or maritime lien on the Goods. An endorsement that the Goods have been shipped "on board" means on board Carrier's vessel or on another mode of transport operated by or on behalf of Carrier en route to the port of loading for loading aboard the Vessel.

2. CLAUSE PARAMOUNT. The receipt, custody, carriage and delivery of the Goods are governed by the provisions of the transportation agreement which consists of (i) the terms and conditions of Carrier's applicable freight tariffs, if any, or agreements evidencing contract carriage (ii) the terms and conditions stated on the front and back of this bill of lading, and (iii) the provisions of the United States Carriage of Goods by Sea Act ("COGSA") 46 U.S.C. 1300 et seq. shall be deemed a surrender by Carrier of any of its rights or immunities or an increase of any of its responsibilities under COGSA. Notwithstanding the foregoing, to the extent that another international convention or national law governing Carrier's liability is mandatorily applicable, or precludes the application of COGSA in the country in which a court having jurisdiction shall adjudicate a dispute arising out of the transportation agreement, then such international convention or national law shall to that extent be applied in determining Carrier's liability in connection with such dispute. The provisions of the transportation agreement shall govern the relationships between the Shipper, Consignee and every person having an interest in the Goods, on the one hand, and Carrier, on the other hand and shall supersede any prior booking note, mate's or dock receipt, or other document to the extent conflicting. The terms and conditions of the transportation agreement shall be severable. If any term or condition is invalid or unenforceable, or if any breach of or deviation from any provision occurs, such circumstance shall not affect the validity or enforceability of the remaining terms and conditions.

3. FREIGHT. Charges shall be due and payable to Carrier in accordance with the provisions of Carrier's applicable tariffs and this bill of lading. Freight may be calculated on the basis of information furnished by the Shipper, but Carrier may open containers, packages, or other shipping units and examine, weigh, measure and identify the true nature and quantity of the Goods. If Shipper-furnished information is determined to be erroneous and additional freight or other charges are payable, the Shipper, Consignee and the Goods shall be liable therefor and for any expense incurred by Carrier in examining, weighing and measuring the Goods. Full freight to the Port of Discharge or Place of Delivery, if indicated, shall be completely earned upon receipt of the Goods by Carrier, whether or not the freight is stated on the front side hereof or intended to be prepaid or collected at destination, and whether or not the Goods are damaged or sound, and said freight shall be received and retained regardless of whether the Vessel and/or the Goods are lost or not lost or the voyage is broken up or abandoned, or under any other circumstances whatsoever. Carrier shall have a lien on the Goods, which shall survive delivery, for all Charges earned or due under the transportation agreement or otherwise and may enforce this lien by public or private sale without notice and by all other lawful means. The Shipper and the Consignee shall be jointly and severally liable to Carrier for the payment of all Charges, as well as for any expenses incurred by Carrier, including attorneys' fees, in connection with claims or proceedings brought by Carrier for collection of Charges due to Carrier and /or proceedings brought by the Shipper, Consignee or any third party claiming to have the right to possess the Goods. All Charges shall be paid to Carrier in full without offset, counterclaim or deduction in the lawful currency of the United States.

In no event shall Carrier’s liability under a combined transport bill of lading exceed that determined pursuant to paragraphs 2 and 22.

(d) If it cannot be determined at which stage of the carriage the loss or damage occurred, it shall be conclusively presumed to have occurred while the Vessel was at sea and Carrier’s liability shall be determined in accordance with paragraphs 2 and 22.

5. CARRIER’S CONTRACTORS. Carrier may require the assistance of others to perform the services undertaken under the transportation agreement. Every servant, agent, stevedore, terminal services contractor, lighter operator, pilot, connecting rail, motor, water or air Carrier, or other independent contractor, including their agents, servants and subcontractors, performing such services shall have the benefit of every exemption from and limitation of liability, defense, right and liberty to which Carrier is entitled under any provision of the transportation agreement or by applicable law. 6. SHIPPER'S WEIGHT, LOAD AND COUNT; SHIPPER'S WARRANTIES. When containers, vans, containers, portable tanks, skids palletized units, and other cargo units are not packed or loaded by the Carrier, Carrier does not represent to be accurate and is not bound by any description of the value, quantity, weight, condition, or existence of the contents thereof as furnished by or on behalf of the Shipper and identified in this bill of lading by use of the phrase "said to contain", "Shipper's weight load and count" or terms of like meaning, and Carrier in such case shall not be liable for any difference in value, quantity, weight or condition of the Goods furnished by or on behalf of the Shipper and that of the Goods actually delivered. Carrier shall have no responsibility or liability whatsoever for the packing, loading, securing, shoring and/or stowage of contents of such cargo units, or for loss or damage caused thereby or resulting therefrom.

With respect to cargo units not packed or loaded by Carrier, the Shipper and Consignee represent and warrant: (a) that the Goods are properly described, marked, secured, and packed in their respective cargo units; (b) that any cargo units other than Carrier furnished units are seaworthy and physically suitable, sound, and structurally adequate to properly contain and support the Goods during handling and the transportation contemplated by the transportation agreement, and that such cargo units may be handled in the usual and customary manner without damage to themselves or to their contents, or to the Vessel or its other cargo, or to property, or to persons; (c) that all particulars furnished to Carrier with regard to the cargo units and their contents, and the weight of each said cargo unit, are in all respects correct and complete; and (d) that such units are in compliance with all applicable government regulations. Shipper and Consignee, jointly and severally, agree to indemnify and hold Carrier harmless in respect of any injury to or death of any person, or any loss or damage to the Goods, or to other cargo or to any other property or to the Vessel or to any other vessel, and for all fines, duties, payments or liabilities of any kind, or any other loss or expense, including, but not limited to, lost profits and attorneys' fees, caused by breach of any of the foregoing representations or warranties or incurred or levied upon Carrier by reason of the Goods being or having been in Carrier's possession.

7. UNDER DECK AND ON DECK STOWAGE. Carrier has the right to carry Goods in containers, vans, containers, and portable tanks under deck or on deck. When such Goods are carried on deck, Carrier shall not be required to specially indicate "on deck" carriage on the face of this bill of lading nor to give notice thereof to the Shipper or Consignee. In respect of Goods in containers, vans, containers or portable tanks carried on deck, Carrier shall not be liable for loss or damage caused by water incursion or other perils incident to such on deck carriage. 8. SPECIAL STOWAGE; REFRIGERATION. Goods will not be provided temperature controlled, insulated or naturally ventilated stowage unless agreed by Carrier, in writing in advance of Carrier's receipt of the Goods, and, in the absence of such agreement, the Shipper and Consignee warrant that the Goods do not require such protection. Carrier does not provide mechanically ventilated stowage and does not furnish or maintain preservative gasses in connection with temperature controlled stowage, and Carrier shall not be responsible for loss or damage to the Goods arising in whole or in part from any lack of mechanical ventilation or preservative gasses. With respect to refrigerated container shipments tendered at Carrier's container yard ("CY") in Carrier's 20-foot equipment, Carrier does not supply temperatures lower than -5 degrees F, and Carrier shall not be liable for any loss of or damage to the Goods arising by reason of the Goods requiring any lower temperature, and the Shipper, by tendering Goods to be refrigerated, warrants and agrees that said Goods may be carried without loss or damage at temperatures at and above -5 degrees F. With respect to refrigerated container shipments tendered at Carrier's terminal facilities in Carrier's 40-foot equipment, Carrier does not supply temperatures lower than -15 degrees F, and Carrier shall not be liable for loss of or damage to the Goods arising by reason of the Goods requiring any lower temperature, and the Shipper, by tendering Goods to be refrigerated, warrants and agrees that said Goods may be carried without loss or damage at temperatures at and above -15 degrees F.

9. RECONDITIONING, ETC. Carrier reserves the right to recondition, cooper, or restow the Goods whenever necessary for the safety of persons, the Vessel or the Goods or to bring the Goods into conformance with applicable law, and Carrier shall be reimbursed therefor at accessorial labor and equipment rental rates named in any applicable tariff or, if no such rates apply, at 120% of Carrier's costs of performing such work.

10. TRANSSHIPMENT; SUBSTITUTION OF VESSEL. Whether or not the Goods are consigned to a port or place where the Vessel discharges, Carrier may, without notice, transship the whole or any part of the Goods before or after loading at the original port of loading or any other place or places even though outside the scope of the voyage or the route to or beyond the port of discharge or the place of delivery of the Goods, by any substituted or connecting water Carrier's vessel or other means of transportation by water, by land or by air, whether operated by Carrier or by others.

11. SCHEDULE; DELAY. Carrier does not undertake that the Goods will be transported from or loaded at the place of receiving or loading or will arrive at the place of discharge, delivery or transshipment aboard any particular vessel or other conveyance or at any particular date or time or to meet any particular market or in time for any particular use. Scheduled or advertised departure and arrival times are only expected times and may be advanced or delayed if Carrier or any connecting Carrier shall find it necessary, prudent or convenient. Carrier shall not be liable for any loss or damages whatsoever, including but not limited to incidental or consequential damages (even if Carrier is advised of the possibility of same), due in whole or in part to any delay in the scheduled departures or arrivals of the Vessel or other conveyances transporting the Goods.

12. SCOPE OF VOYAGE; CARRIER'S LIBERTIES. Carrier may call at scheduled ports in or out of the usual order, may provide substituted service by modes other than water, may omit scheduled routes or ports, may include unscheduled routes or ports and may lighter the Goods. The Vessel may sail with or without tugs or pilots, undertake rescue or salvage, tow or be towed, or undergo dry-docking or repairs. In any situation whatsoever which, in the opinion of the master or Carrier, gives rise to risk of seizure, detention, damage, loss, delay or disadvantage to the Vessel or the Goods, or of materially detaining the equipment of Carrier or would make it imprudent, unlawful or commercially impracticable to commence or continue the voyage or to enter or discharge the Goods at the port of discharge, the master or Carrier may discharge the Goods, or any part of them, at any port or place considered by Carrier to be safe or advisable under the circumstances and forward or arrange to forward the Goods by land, water, or air conveyance, or place the Goods in a storage facility, all at the risk and expense of the Goods. The exercise of any of the foregoing liberties by Carrier or the master shall constitute performance under the transportation agreement and not a deviation from the scope of the voyage. When the Goods are discharged from the Vessel and delivered to a forwarding agent or Carrier or to a storage facility under the provisions of this paragraph, or when required to be delivered to local customs authorities under local law, such discharge and delivery shall constitute complete delivery and performance under the transportation agreement.

13. DELIVERY UNDER NEGOTIABLE BILLS OF LADING. Intentionally Omitted

14. UNDELIVERED GOODS. If, for any reason whatsoever, the Consignee refuses or fails to take delivery of the Goods upon their arrival and availability at destination and upon expiration of tariff-prescribed free time or any notice period as set forth in a notice of arrival, availability or demand given by Carrier, Carrier may, without further notice or demand, and in addition to any other legal or equitable remedies, exercise its maritime lien for any charges due at a private or judicial sale of the Goods, or may place the Goods in storage at the risk and expense of the Goods, subject to a lien in favor of Carrier for any charges due.

15. CARRIER'S CONTAINERS. Whenever a Shipper or Consignee, or an agent or contractor acting on behalf of either of them, shall take possession of Carrier's equipment including containers, semi-containers and refrigeration equipment, the Shipper or Consignee in possession, or for whose benefit an agent or contractor has taken possession, shall defend, indemnify and hold Carrier harmless from and against any loss or damage to Carrier's equipment and property owned by third parties and injury to or death of persons arising out of the use of said equipment.

16. DANGEROUS, HAZARDOUS OR NOXIOUS CARGO. Goods of a flammable, explosive, corrosive, radioactive, noxious, hazardous, unstable or dangerous nature, may at any time before discharge, be landed at any place, thrown overboard, destroyed or rendered innocuous without liability on the part of Carrier or other Shippers or consignees if, in the opinion of Carrier, such goods are or will become dangerous or noxious to the Vessel or to cargo or to persons. The Shipper shall indemnify Carrier for all losses, damages, (including, but not limited to, consequential damages such as lost profits and expenses related to Carrier's inability to use its vessels and equipment), liabilities, fines, civil penalties and expenses (including attorneys' fees) suffered by Carrier as a result of carriage or handling of such Goods.

17. NEW JASON CLAUSE. General average to be payable according to York - Antwerp Rules, 1994, but where the adjustment is made in accordance with the law and practice of the United States of America, the following clause shall apply: 'In the case of accident, danger, damage or disaster, before or after commencement of the voyage, resulting from any cause whatsoever whether due to negligence or not, for which, or for the consequence of which the shipowner is not responsible by statute, contract or otherwise, the goods, Shippers, consignees or owners of the goods shall contribute with the Carrier in general average to the payment of any sacrifices, losses or expenses of a general average nature that may be made or incurred and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the Carrier, salvage shall be paid for as fully as if the said salving ship or ships belonged to strangers. Such deposit as the Carrier or his agents may deem sufficient to cover the estimated contribution of the goods and any salvage and special charges thereon shall, if required, be made by the goods, Shippers, consignees or owners of the goods before delivery.

18. BOTH-TO-BLAME COLLISION CLAUSE. If the ship comes into collision with another ship as a result of the negligence of the other ship and any act, neglect or default of the master, mariner, pilot or the servant of the Carrier in the navigation or in the management of the ship, the owners of the goods carried hereunder will indemnify the Carrier against all loss or liability to the other or non-carrying ship or her owners in so far as such loss or liability represents loss of, or damage to, or any claim whatsoever of the owners of said goods, paid or payable by the other non-carrying ship or her owners to the owners of said goods and set off, recouped or recovered by the other or non-carrying ship or her owners as part of their claim against the carrying ship or Carrier. 19. WAR RISKS; GOVERNMENTAL ORDERS. Carrier shall have liberty to carry Goods declared by any belligerent to be contraband and persons belonging to or intending to join the armed forces or governmental service of any belligerent; to sail armed or unarmed and with or without convoy; and to comply with any orders, requests or directions as to loading, departure, arrival, routes, ports of call, stoppage, discharge, destination, delivery or otherwise, howsoever given by the government of any nation or department thereof or any person acting or purporting to act with the authority of such government or of any department thereof, or by any committee or person having, under the terms of the war risk insurance on the Vessel, the right to give such orders, requests or directions. Delivery or other disposition of the Goods in accordance with such orders, requests or directions shall constitute performance of Carrier's delivery obligations under the transportation agreement, and all responsibility of Carrier, in whatever capacity, shall terminate upon such delivery or other disposition.

20. TIME FOR SUIT. Carrier, its agents, servants and subcontractors and the Vessel shall be discharged from all liability whatsoever for loss, damage, or expense on any theory of recovery, including but not limited to negligence, breach of contract, tort, violation of statute, law or regulation, strict liability, delay, misdelivery, conversion or otherwise, unless suit is brought and jurisdiction is obtained over Carrier by service of process within one year after delivery of the goods or the date when the Goods should have been delivered. 22. LIMITATION OF CARRIER'S LIABILITY; AGREED VALUE. Unless the Shipper shall cause the nature and value of the Goods to be declared before shipment and pay freight at the ad valorem rate set forth in Carrier's tariffs, the Shipper agrees that for the purpose of computing any liability of Carrier for loss or damage to the Goods, the value of the Goods shall be their market value at destination which shall be presumed to be invoice cost plus freight and insurance (or, where there is no invoice, the value of the Goods at the time and place of shipment plus freight and insurance). In no event shall Carrier's liability exceed U.S. \$500 per package lawful money of the United States, or in case of Goods not shipped in packages, U.S. \$500 per customary freight unit. Notwithstanding the foregoing, to the extent that another international convention or national law governing Carrier's liability is held applicable or precludes the application of COGSA, then such international convention or national law shall to that extent be applied in determining Carrier's liability and the words "666.67 SDRs per package or 2 SDRs per kilo of the gross weight of the Goods lost or damaged, whichever is higher" shall be substituted for the words "U.S. \$500 per package lawful money of the United States, or in case of Goods not shipped in packages, U.S. \$500 per customary freight unit" in the previous sentence. In no event shall Carrier be liable for more than the amount of damage actually sustained, nor shall Carrier be liable for loss of or damage to any Goods not identified in the transportation documents furnished to Carrier nor shall Carrier be liable for incidental or consequential damages arising from any cause whatsoever (even if Carrier has been advised of the possibility of the same).

23. VALUABLE GOODS. Carrier shall not be liable to any extent for any loss or damage to or in connection with the transportation of bullion or other precious metals, coins, currency, jewelry, bills of any bank or public body, diamonds or other precious stones, or any platinum, gold or silver in a manufactured or unmanufactured state, bank notes, or securities for payment of money, bonds or other negotiable instruments, stamps, printings, engravings, pictures, furs, or any other precious or extraordinarily valuable cargo, unless the true nature and value of the cargo has been declared in writing by the Shipper before receipt of the cargo by Carrier, and the same is inserted in the front side of this bill of lading and an appropriate ad valorem freight is paid.

24. LIVE ANIMALS. Live animals, including but not limited to birds, reptiles and fish, are received and carried at the Shipper's and Consignee's risk of accident or mortality, and Carrier shall not be liable for any loss or damage thereto or in connection with the transportation thereof arising or resulting from any matters mentioned in section 4, subsections 2(a) through (p) of COGSA, or from any cause whatsoever not due to the fault of Carrier and/or its agents, servants, and subcontractors. The Carrier shall not carry goods otherwise prohibited from carriage by the Carrier's internal policies. Such application shall state:
